

**PyData Vermont 2024
SPONSOR PROSPECTUS**

Burlington, Vermont
July 29-30

An educational program of **NUMFOCUS**
OPEN CODE = BETTER SCIENCE

ABOUT PYDATA

“My coworker and I both attended PyData Seattle, agreed that it was the best conference we had ever been to, and made it a goal to get to another.”

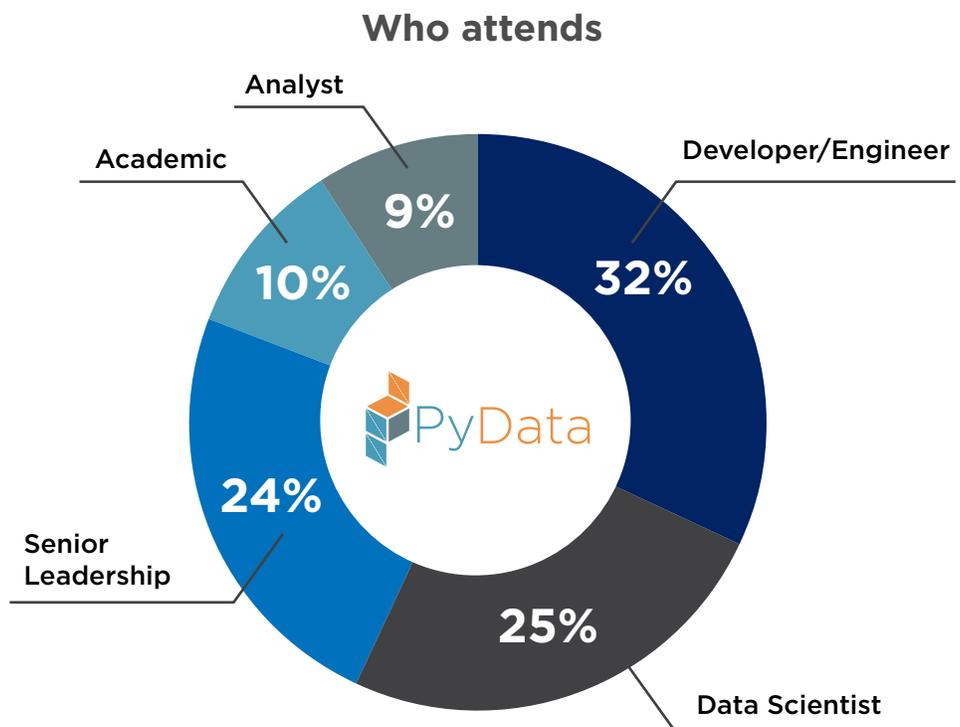

— Phil Anderson,
Senior Data Scientist

PyData is an educational program of NumFOCUS, a 501(c)3 non-profit organization in the United States. PyData provides a forum for the international community of users and developers of data analysis tools to share ideas and learn from each other. The global PyData network promotes discussion of best practices, new approaches, and emerging technologies for data management, processing, analytics, and visualization. PyData communities approach data science using many languages, including (but not limited to) Python, Julia, and R.

We aim to be an accessible, community-driven conference, with novice to advanced level presentations. PyData tutorials and talks bring attendees the latest project features along with cutting-edge use cases.

Frequent Topics

- Machine Learning
- Artificial Intelligence
- Predictive Modeling
- Data Mining
- Natural Language Processing

BENEFITS OF SPONSORING PYDATA

BRANDING:

Invest in your brand equity by supporting the community of developers and open source maintainers

TALENT ATTRACTION:

Connect with engineers, analysts, and data scientists at the forefront of data science

THOUGHT LEADERSHIP:

Demonstrate your company's leadership and innovation chops in front of the brightest minds in the business

SPONSOR BENEFITS FAQS

What is included with an Expo Booth?

Unless communicated differently, an expo booth is a 6-foot table and chairs, plus wi-fi and electricity. Sponsor booths are integrated into common areas where they will attract attendee traffic. Sponsors are responsible for shipping charges to and from the conference. Expo booths are available for **Platinum** and **Gold** sponsors.

What is Premium Logo Placement?

Platinum sponsor logos receive preferential treatment on all logo-related benefits (top line, centered, or first; larger than others). Includes the opportunity to place your company logo on attendee badges and/or lanyards.

Do Sponsor Talks and Tutorials Go Through the Regular Review Process?

Platinum and **Gold** sponsors are able to present a talk at the event. While sponsor talks do not go through the regular review process, presentation proposals must be submitted for approval by the review committee. The committee will help ensure that your presentation's content is appropriate and relevant to the audience at the event.

What is included in access to the Attendee List?

The list will be a .csv file with attendee name, email, job title, and company from those who have opted in during registration. **Platinum** and **Gold** sponsors receive access to the Attendee List.

What are the Attendee Submitted LinkedIn/Resume/Website Links?

During registration, attendees are invited to provide a url that links to their personal website, resume, or LinkedIn profile to be shared with event sponsors. **Platinum and Gold** sponsors have access to the submitted links.

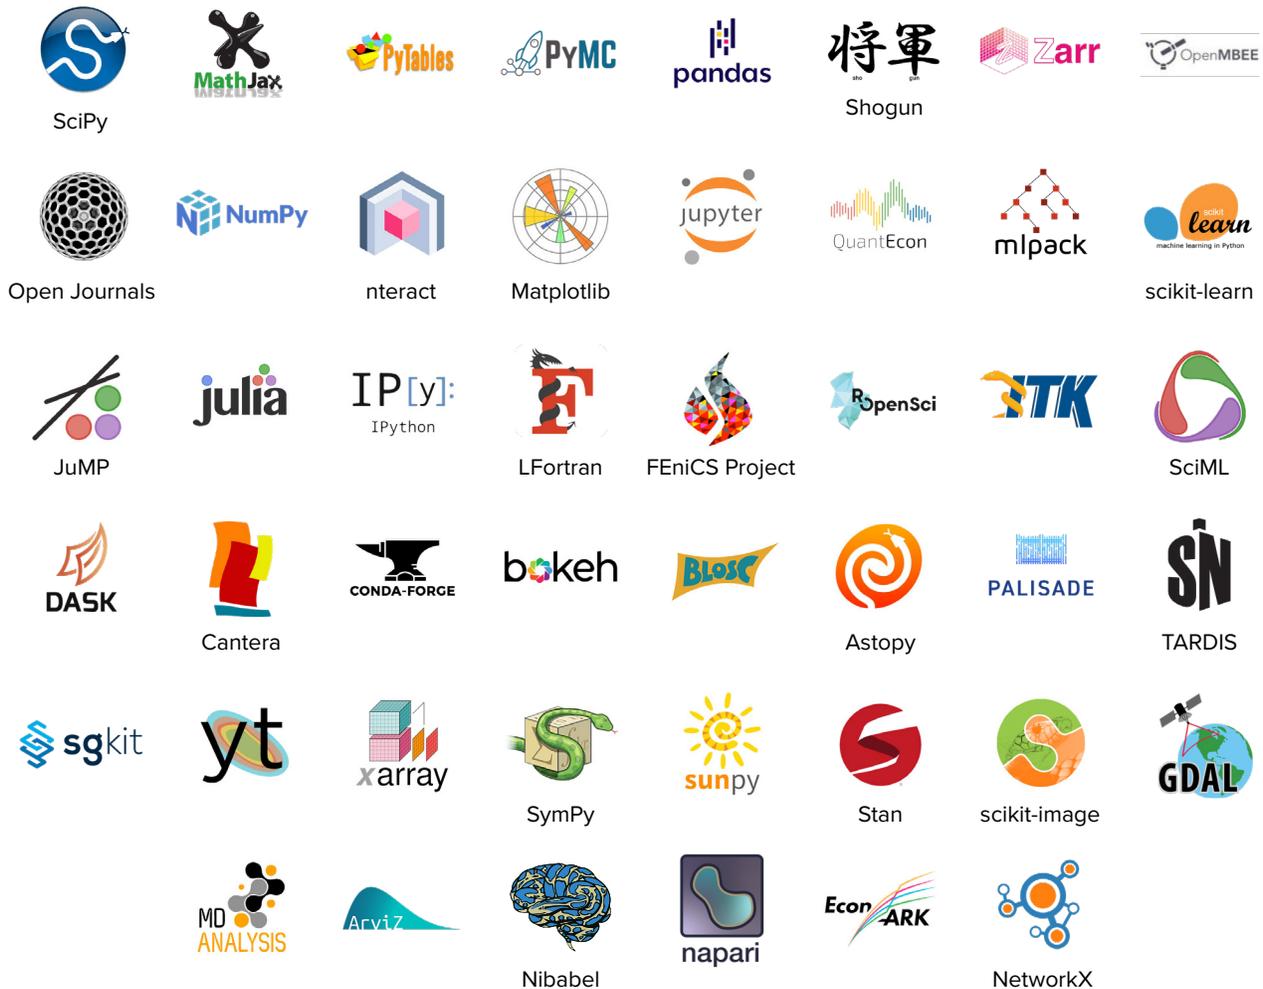

What is the Job Board?

Your company's job listings will be published on the event website and emailed out to all event attendees. **All PyData sponsors** have access to the job board. Limit 5 job listings per sponsor.

SPONSORING THE OPEN SOURCE COMMUNITY

All proceeds from PyData events go to support NumFOCUS, whose mission is to promote open practices in research, data, and scientific computing. NumFOCUS accomplishes its mission by sponsoring open source software projects and organizing educational programs, events and initiatives in collaboration with the community.

About NumFOCUS

The mission of NumFOCUS is to promote sustainable high-level programming languages, open code development, and reproducible scientific research. We accomplish this mission through our educational programs and events as well as through fiscal sponsorship of open source scientific computing projects. We aim to increase collaboration and communication within the data science and scientific computing community.
